
JOURNAL OF INTELLIGENT & FUZZY SYSTEMS

SUBJECT INDEX TO VOLUME 2

- Abnormal environment safety assessment, 337
Adaptive traffic control, 115
Artificial neural networks, 201, 221
Association, 179
Axiomatic approach, 179
- Backpropagation, 209
Backpropagation learning, 115, 201
- Catastrophe theory, 179
Classification, 101
Cluster estimation, 267
Clustering, 209
Competitive learning, 289
Conceptual design, 179
- Decision making, 161
Dempster-Shafer rule of combination, 191
- Electric tuning process, 299
Emulator/controller architecture, 201
- Feedback-linearization/fuzzy logic control scheme, 325
Feedforward neural network, 101
Flexible link manipulator, 325
Focal element, 191
Forward modeling, 115
Fuzzy algebra analysis, 337
Fuzzy associative memory, 179
Fuzzy clustering neural network (FCNN), 289
Fuzzy constraints, 315
Fuzzy control, 125, 279
Fuzzy functional requirements, 179
- Fuzzy hardware, 125
Fuzzy inference, 229
Fuzzy logic, 39, 147
Fuzzy logic control, 209, 325
Fuzzy logic controller, 147
Fuzzy model identification, 267
Fuzzy modeling, 1, 209
Fuzzy neural network, 161
Fuzzy neural systems, 243
Fuzzy neuron, 161
Fuzzy reasoning, 125
Fuzzy relational equation, 1
Fuzzy rule base, 147
Fuzzy rules, 179
Fuzzy sets, 191
- Generalization, 1
- Image processing, 69
Inconsistent rule base, 147
Injection molded part design, 89
Innovative design, 179
Intelligent hybrid system, 89
- Learning, 161
Learning control system, 201
Learning rules, 39, 209
Learning capability, 1
- Maximizing set, 191
Max-min compositions, 179
Microwave electric circuits, 299
Multi-attribute decision making, 55
Multicriteria fuzzy control (MFC), 279
Multicriteria load dispatch, 315

Multilayer neural network, 1, 115
Multivalued sets, 179

Neural network, 69, 89, 101, 221
Neurocontroller, 201
Neuro-fuzzy identifier, 1
Neuro-fuzzy network, 1
Neuro-fuzzy controller, 1
Noise-tolerant symbolic learning, 347

Object identification, 191
Orthographic projection, 69

Parallel architecture, 289
Parallel light source, 69
Partial inversion algorithm, 115
Partition and projection techniques, 125
Phong reflectance function, 69
Photometric stereo, 69
Priority setting, 55

Priority Eigen vector, 55
Probability, 39

Reflectance map, 69
Retaining structure selection, 251
Rough sets, 75
Rule induction, 161

Sensory data, 347
Shape from shading, 69
Specialized learning architecture, 201
Stability, 1
Surface gradient, 69
System identification, 243
Systolic architectures, 125

Tree structured neural network, 101

Variable structure control (VSC), 229
