REVIEWER LIST 1995

We extend our sincerest gratitude to the following reviewers who have contributed their time and expertise to our journal. This list includes all individuals who provided or delegated reviews for papers appearing in Volume 3, Issues 1 through 4, of the *Journal of Intelligent & Fuzzy Systems*.

Mo Jamshidi and Timothy J. Ross, Editors-in-Chief
Valerie Steinmaus, Editorial Manager

Teresa Adams
University of Wisconsin at Madison
Mohammad Akbarzadeh
University of New Mexico
Jack Aldrich
AdvanTex, Inc.
M. Anvari
University of California, Berkeley
Adedeji B. Badiru
University of Oklahoma
Denis Barak
Control Designs, New Mexico
Senen Barro-Ameneiro
Universidade de Santiago de Compostela
R. Bertin
GRAI—Laboratoire d'Automatique et Productique
Doug Birdwell
University of Tennessee, Knoxville
B. Bourgeois
University of Houston
A. Bugarin
Universidade de Santiago de Compostela
Deqian Chen
University of Arizona
Stephen Chiu
Rockwell Science Center
Byeong-Mook Chung
Korea Advanced Institute of Science & Technology (KAIST)
R. Colbaugh
New Mexico State University
George Cunningham III
New Mexico Institute of Mining & Technology
Ahmed M. Darwish
Cairo University
M. Delgado-Restituto
Universidad de Sevilla, Spain
Kofe Kissi Dompere
Howard University
Didier Dubois
Universite Paul Sabatier, France
D. Edwards
University of Idaho
A.A. El-Keib
The University of Alabama

Dimitar P. Filev
Ford Motor Co.
Zheng Geng
Intelligent Automation, Inc.
Madan M. Gupta
University of Saskatchewan
Waldemar Karwowski
University of Louisville
Nasser Kehtarnavaz
Texas A&M University
Chul-Sung Kim
Exxon Production Research Co.
Hung-man Kim
University of Arizona
Jong-Hwan Kim
Korea Advanced Institute of Science & Technology (KAIST)
Shinzo Kitamura
Kobe University, Japan
George Klir
State University of New York, Binghamton
Bart Kosko
University of Southern California
Erlendur Kristjansson
Polaroid Corp.
Robert N. Lea
LinCom Corporation
Minho Lee
Korea Advanced Institute of Science & Technology (KAIST)
Seon-Woo Lee
Korea Advanced Institute of Science & Technology (KAIST)
Paul J.A. Lever
University of Arizona
F.L. Lewis
University of Texas at Arlington
Kai Liu
University of Texas at Arlington
Xiaoqing Liu
Texas A&M University
Rinaldo C. Michelini
University of Genoa
Tsutomu Miki
Kyushu Institute of Technology

Gary P. Moynihan
The University of Alabama
M.H. Nehrir
Montana State University
H.T. Nguyen
New Mexico State University
Nikhil R. Pal
Indian Statistical Institute
Grantham Pang
Hitachi Research Laboratory, Japan
Cheol Hoon Park
Korea Advanced Institute of Science & Technology (KAIST)
William J. Parkinson
Los Alamos National Laboratory
Bozenna Pasik-Duncan
University of Kansas
A. Patra
Indian Institute of Technology
Witold Pedrycz
University of Manitoba
Francois Pin
Oak Ridge National Laboratory
Alan Pugh
University of Hull, U.K.
P.K. Rajan
Tennessee Technical University
Ganti Prasada Rao
Indian Institute of Technology
Utpal Roy
Syracuse University
R. Ruiz
Universidade de Murcia
Nader Sadegh
Georgia Institute of Technology
Heloisa Scarpelli
UFS Car/CCT/DC, Brasil
Nariman Sepehri
University of Manitoba
Adnan K. Shaout
University of Michigan

Xiaobo Shi
University of Arizona
Divyendu Sinha
City University of New York
Qiang Song
University of Alabama
Harald Stadlbauer
Technical University of Vienna
Thomas Sudkamp
Wright State University
Hiroyuki Tamura
Osaka University, Japan
G.E. Taylor
University of Hull, U.K.
George Vachtsevanos
Georgia Institute of Technology
Nader Vadiee
University of New Mexico
S.J. Verzi
University of New Mexico
Claude Vibet
Institut Universitaire de Technologie
Miomir K. Vukobratovich
Mihailo Pupin Institute, Serbia
Feiyue Wang
University of Arizona
Paul P. Wang
Duke University
Jonathan Weiss
McDonnell Douglas Advanced Software Technology
Ronald R. Yager
Machine Intelligence Institute, Iona College
Hong Quan Yang
Simon Fraser University
Lianwen Zhang
University of British Columbia
Meng Chu Zhou
New Jersey Institute of Technology
A. Zilouchian
Florida Atlantic University
