

# Keyword Index Volume 4 (2011)

acidosis	179	ethanol	15
activated partial thromboplastin time (APTT)	133	evidence-based NICU design	189
adrenal insufficiency	247	extreme prematurity	273
antioxidants	341	extremely low birth weight infant	127
arrhythmia	319		
autologous retransfusion	1	family centered care	137
		fatty acids	341
bariatric surgery	231	feedings	341
bile duct paucity	173	feeding tube	9
BNP	83	fetal arrhythmia	253
bradycardia	319	follow-up	93
bronchopulmonary dysplasia	111	free cortisol	247
		freezing	341
candidemia	39	full term	55
candidiasis	39	fungal infection	39
cardiorespiratory morbidity	21		
cerebral blood flow velocity	127	gastroschisis	211
child nutritional sciences	341	genotoxicity	333
chorioamnionitis	147	gestational hypertension	211
chylothorax	383	glucose-6-phosphate dehydrogenase (G-6-PD)	373
cleft lip	173	glutathione	119
cleft palate	173		
coagulation	133	Haemodynamically Significant Ductus Arteriosus	21
complete heart block	253	heat exchange	89
Congenital	179	hemophagocytic lymphohistiocytosis	277
congenital diaphragmatic hernia	33	hepatoblastoma	387
cord blood	1	hepatomegaly	277
cysteine	119	high frequency ventilation	33
		hot temperature	341
desaturation	319	humans	341
diagnosis	83	hyperinsulinism	59
diazoxide	59	hypoglycemia	59
doppler ultrasound	127	hypoxic ischemic encephalopathy	201
drug treatment	309		
duct ligation	21	ibuprofen	155
		incubator	15, 89
electroencephalogram	65	indomethacin	155
epidermal growth factor	341	infant	1, 65, 163, 341
erythrocyte	1	infant mortality	353
estradiol	147	infant survival	353

infants	39, 59	NICU morbidity	189
informed consent	303	NICU	323
intensive care	329	neonatal	71
intracranial hemorrhage	169	nonimmune hydrops	383, 387
intrauterine growth restriction	231	NT-proBNP	83
intravenous access	269		
intraventricular haemorrhage	241	oligohydramnios	33
intraventricular hemorrhage	127	oral ibuprofen	347
isopropanol	15	orogastric	9
IUGR	231	outcomes of care	189
kangaroo care	89	pain	333
kernicterus	373	patent ductus arteriosus	155, 309, 347
		patent ductus arteriosus staging	27
lactation	341	pathogen detection	323
lactic	179	PCR	323
lactobacillus	163	PDA	83, 155
late preterm infant	221	pentalogy of Cantrell	379
ligation	309	perforation	273
lipids	341	perinatal sentinel event	201
liver herniation	379	permissive hypercapnia	111
local anesthetics	333	phenomenology	137
long-term young adult outcome	93	pitt Hopkins	173
lucinactant	101	plasma	1
lung injury	111	platelets	133
		pneumatosis intestinalis	221
management	83	pneumonia immunization	263
maternal smoking	119	preeclampsia	211
maturation	319	pregnancy	119, 211
mechanical ventilation	71, 111	pregnancy-associated hypertension	211
meckel's diverticulum (MD)	273	premature	155, 341
microwaves	341	premature infants	9, 309
middle cerebral artery infarction	169	premature neonates	347
milk	341	prematurity	93, 155, 319
mitochondrial diseases	179	preterm	83, 241, 387
mortality	101	preterm birth	353
muslim mothers	137	preterm infant	89, 111
myofibroma	75	probiotics	163
		protein C	55
neonatal	333	prothrombin time (PT)	133
neonatal candidiasis	39	pulmonary hypertension	33
neonatal care	263	pulmonary hypoplasia	33
neonatal encephalopathy	201	pulmonary lymphangiectasia	383
neonatal intensive care unit	137		
neonatal jaundice	373	race	353
neonate	15, 155, 269, 323	rectal atresia	173
Neonates	39, 329	redox	119
neonatology	303	refrigeration	341
newborn infants	247	reintubation	101
newborn	1, 33, 55, 59, 65, 75, 119, 147, 277, 341	respiratory distress syndrome	101

respiratory distress	379	surfactant	101
respiratory failure	277	survey	309
respiratory morbidity	27	survival	71, 93
retinal hemorrhage	169	18q syndrome	173
review	83		
risk factors	39	temperature	341
		tetanus	71
scalp vein	269	therapeutic hypothermia	201
scalp	75	total cortisol	247
second course	347	total parenteral nutrition	269
seizures	65	transepidermal water loss	89
sepsis	147, 163	trisomy 21	383
sepsis	55	tuberculosis	277
serotonin reuptake inhibitors	65	tumor	75
serum Activin A	241		
single-family room NICU	189	visible blood in the stools	221
smoking cessation	263	vitreous hemorrhage	169
<i>staphylococcus aureus</i>	373		
Subdural fluid collection	269	weight for gestational age	353
supraventricular tachycardia	253	wireless monitor	329
