

Keyword Index Volume 2 (2013)

ACTH	97	focal cortical dysplasia	33
adverse drug effects	131	fTCD	215
AED teratogenicity	147	functional brain imaging	19
Aicardi syndrome	141	functional magnetic resonance imaging	63
anticonvulsants	109, 183	GLUT1-DS1	137
antiepileptic drugs	125	health status	173
asymmetric infantile spasms	141	health-related quality of life	173
behavior	157	high-density EEG	3
behavioral disorder	245	human brain development	73
behavioral problems	229	ICF	173
bone health	199	ictal	3
catamenial epilepsy	147	idiopathic epilepsy	115, 229
cause	223	inborn error of metabolism	33
childhood	229	infantile spasms	255
children	3, 49, 87, 115, 199	intelligence	115
children epilepsy	19	inter-ictal spikes	3
chorioretinal colobomas	141	interhemispheric cyst	141
cognition	115	internalizing	157
cognitive dysfunction	245	Kearns-Sayre syndrome	259
cognitive networks	63	ketogenic diet	137
contraception	147	language mapping	87
cortical dysplasia	73	Lennox-Gastaut syndrome	109
CSWS	97	magnetoencephalography	73
dichotic listening	215	malformation of cortical development	33
diffusion tensor imaging	49	measurement	173
diffusion-weighted MRI	49	MEG	215
epilepsia partialis continua	259	mood	157
epilepsy	3, 33, 49, 87, 125, 131, 183, 199, 215, 223, 245	MRI	19, 33, 49, 223
epilepsy syndrome	223	MRS	33
epileptic encephalopathy	97, 109	near infrared spectroscopy	87
epileptic focus localization	87	neoplasm	33
ESES	97	neuroimaging	19
excitatory amino acid	239	neuron-specific enolase	115
externalizing	157	neutropenia	137
felbamate	131		
fMRI	215		

NIRS	215	seizure	19
nitric oxide and malondialdehyde	239	seizures	3, 239
noninvasive neuroimaging	87	sleep	183
		source localization	3
patient reported outcomes	173	SPECT	19
pediatric epilepsy	19, 63, 73, 157	steroids	97
pediatric magnetoencephalography systems	73	surgery	49
pediatrics	223		
PET	19	temperament	229
pregabalin	125	treatment	157, 239
presurgical assessment	87	tuberous sclerosis complex	73, 255
psychopathology	229	tumor	33
resting state	63	vigabatrin	255
rufinamide	109	vitamin D	199
S100 β protein	115	West syndrome	255, 239
school children	245	women's health	147
