

# Keyword Index Volume 3 (2014)

angelman syndrome	173	focus	107
anticonvulsants	15	functional MRI	131
anti-epileptic drug	77		
		GABA-T deficiency	217
behavior	93	gastroenteritis	117
benign infantile epilepsy	117	GEFS+	93
		gelastic seizure	45
cannabidiol	63	genetics	199
cataplexy	229	global developmental delay	241
catastrophic epilepsy	67	glucose 1 transporter deficiency	191
central nervous system	121	glycine encephalopathy	207
child	121		
childhood	181, 191	HHE	67
children	77, 85, 157	hyparrhythmia	181
clusters	181		
CMT	121	implementing diet	25
cognitive	93, 157	infantile spasms	181
contralateral	107		
		ketogenic diet	25, 67
deep brain stimulation	33		
degenerative brain disease	199	lesion	107
dementia	199	levetiracetam	77, 117
development	157	L-serine	241
developmental delay	235		
drug-resistant epilepsy	33	marijuana	63
		MEG	131
EEG	131	metabolic encephalopathies	3
Electrocorticography	131	microcephaly	241
electroencephalogram	235	myoclonic encephalopathy	207
encephalopathy	131, 157, 181	myoclonic seizures	173
epilepsy surgery	33, 107, 131		
epilepsy syndromes	191	negative myoclonia	173
epilepsy	3, 39, 55, 63, 77, 85, 93, 107, 113, 117, 121, 131, 157, 199, 207, 229, 235	neurodevelopment	235
epileptic encephalopathy	67, 173, 217	neuroimaging	131
epileptic spasms	181	neurological manifestations	229
epileptogenic zone	55	neurometabolic diseases	217
extratemporal epilepsy	55	neuropsychological	93
		neuropsychology	157
febrile seizures	93	neurostimulation	33
FIRES	67	neurosurgery	39
first add-on	77	Niemann Pick C disease	229
		nonketotic hyperglycinemia	207

non-progressive encephalopathy	173	recurrent	113
		refractory epilepsy	173
pediatric epilepsy	15	responsive neurostimulation	33
pediatric neurosurgery	45	retinopathy	199
pediatrics	39, 45, 55, 113, 131		
PET	131	seizure frequency	85
3-PGDH deficiency	241	seizure	33, 39, 45, 55, 117, 191, 229, 235, 241
precocious puberty	45	serine deficiency	241
PRES	113	SSADH deficiency	217
prognosis	113	stigma	85
PSAT deficiency	241		
PSP deficiency	241	treatment outcome	235
psychosocial functioning	85	treatment	229
pyridoxine dependent epilepsy	235		
quality of life	85
