

# Keyword Index Volume 3 (2014)

adipokines	17	end-stage renal disease	103
Adiponectin	17	eyelid	281
Aicardi syndrome	271	facial asymmetry	167
albinism	229	facial dysmorphism	141
Alström syndrome	79	familial dysautonomia	195
aniridia	209	<i>FBN1</i>	157
ARMS-PCR	175	fibrillin-2	163
ARPKD	89	FISH	1
array CGH	1	fragile X syndrome	147
Axenfeld-Reiger syndrome	209	Gardner syndrome	259
Bardet-Biedl syndrome	79	genetic choroidal disorders	243
Beals syndrome	163	genetic disorders of lens	219
blepharophimosis	281	genetic macular disorders	243
brittle bone disease	29	genetics	79, 115, 259, 281
childhood glaucoma	209	genotype-phenotype correlation	157
childhood obesity	17	Gorlin-Gotz syndrome	259
chondrodysplasia	49	hearing loss	29
chronic progressive external ophthalmoplegia	281	heavy metals	9
Cilia	49, 129	hemivertebra	167
ciliopathy	79, 103	hepato-renal fibrocystic disease	89
Cogmed	147	hereditary optic neuropathy	271
collagen diseases	29	hereditary retinal disease	229
coloboma	271	HPLC	175
color blindness	229	<i>IFITM5</i>	35
congenital cataract	41, 219	Jeune syndrome	49
congenital contractures	163	Joubert syndrome	65
congenital rubella	209	keratoconus	195
corneal dystrophy	195	keratoglobus	195
CpG dinucleotide deamination	35	Klippel-Feil anomaly	167
cyst	129	macular dystrophy	243
cystic kidney disease	103	Marfan syndrome	157, 209
cystinosis	195	Meckel-Gruber syndrome	65
cytogenetics	175	medulloblastoma	129
Dextrocardia	167		
diagnosis	115		
DNA methylation	35		
dysmorphic features	41		

megalocornea	195	primary ciliary dyskinesia	115
metabolic bone disease	29	primary cilium	65, 89
microarray analysis	41		
microdeletion	175	renal cell carcinoma	129
MLPA	1	retinal detachment	229
Mobius syndrome	281	retinal vascular disease	229
molecular cytogenetic techniques	1	retinoblastoma	259
morning glory disc	271	retinoschisis	229
motor and language delay	41	Rubinstein-Taybi syndrome	209
mucopolysaccharidosis	195		
myasthenic syndromes	281	sclerocornea	195
		Sensenbrenner syndrome	49
Nephronophthisis	103	septate uterus	167
neurofibromatosis type 1	209	severe early onset	157
neurofibromatosis	259	short-rib polydactyly syndrome	49
nevus of Ota	209	situs inversus	167
night blindness	229	skeletal dysplasia	29
novel mutation	163	SKY	1
		strabismus	281
obesity	79	Sturge-Weber syndrome	209
optic nerve drusen	271	syndromic cataract	219
optic nerve glioma	259		
optic nerve hypoplasia	271	targeted treatments	147
optic nerve pit	271	<i>TCF4</i> phenotype	141
optic nerve	271	transition zone	65
Osteogenesis imperfecta	29, 35	transposable elements	9
		tuberous sclerosis	259
parental aging	9	tumors	259
pediatric genetic disorders	9		
pediatric retina	229	vitreoretinopathy	229
Peters' anomaly	195	von Hippel-Lindau disease	129
Pitts-Hopkins syndrome	141	von Hippel-Lindau syndrome	259
<i>PKHD1</i> mouse models	89		
polymorphisms	17	working memory training	147
<i>PPIB</i>	29
