

# Keyword Index Volume 7 (2012)

10/90 gap	49	encephalopathy	45
abscess	119	fetal programming	61
acute measles	103	group A streptococcus	115
acyclovir	41	group B streptococcus	145
adrenal	119	Hepatitis B virus	109
Anti-D	127	hepatosplenomegaly	123
antivirals	55	herpes simplex virus	41
bacteremia	135	HIV	97
behavior	89	infant neonate	131
bicuspid aortic valve	177	infants	9
bladder fungus ball	165	infection	15, 31, 61
blood transfusion	109	infectious endocarditis	151
cancer	15	infective endocarditis	177
candidiasis	165	influenza	49, 55, 61, 75, 89
CCR5	171	influenza vaccine	69
cerebrospinal fluid analysis	139	invasive <i>Yersinia</i>	123
childhood development	61	juvenile idiopathic arthritis	27
children	55, 69, 83, 89, 171	Lemierre syndrome	21
chronic disease	61	<i>Macracanthorhynchus ingens</i>	161
<i>Chryseobacterium indologenes</i>	31	maternal colonization	145
clinical trial	49	measles IgM	103
colonization	97	mebendazole	161
congenital candidiasis	131	mediastinal abscess	21
congenital diaphragmatic hernia	31	meningitis	9, 115
congenital heart disease	151	meningococcal infection	45
contact-investigation	159	methicillin-resistant <i>Staphylococcus aureus</i>	21, 97
contaminant	31	mild	75
daptomycin	135	modified Duke criteria	151
dengue	1	MRSA	135
dengue hemorrhagic fever	127	multidrug-resistance	159
descending necrotizing mediastinitis	21	mycetoma foot	37
developing country	49	neonate	31, 41, 135, 165
early diagnosis	41	neuraminidase inhibitors	55
early neonatal disease	145		
economic analysis	69		
encephalitis	171		

neurotuberculosis	139	streptococcus pneumoniae	177
Neutropenia	15	systemic candidiasis	131
non-typhi	9	systemic illness	45
pandemic	75	tertiary care hospital	1
parents	89	thrombocytopenia	127
pediatric	31	transmission	159
pediatric population	1	tubercular meningitis	139
pneumonia	31, 49	tuberculoma	139
policy-making	69	tuberculosis	27, 159
polyarticular	27	tuberculous gumma	37
post measles	103	tuberculous meningitis	37
postoperative endocarditis	151		
pregnancy	61	United States	9
prenatal	61		
		vaccinating against influenza	83
real time polymerase Chain reaction	139	vaccination	89
retropharyngeal abscess	21	vaccination program	69
rotavirus	45	vaccine safety	69
		vasculitis	45
salmonella	9		
schizophrenia	61	West Nile virus	171
scoring criteria	103		
sepsis	131	<i>Yersinia</i>	123
sickle cell anemia	109	yersiniosis	123
<i>Staphylococcus aureus</i>	97
