

Keyword Index Volume 3 (2014)

acute kidney injury	45, 67, 159	deep sedation	53
acute renal failure	45	delirium	53
alarmins	9	diabetic ketoacidosis	59
allogeneic hematopoietic stem cell transplant	103	diffuse alveolar hemorrhage	147
American trypanosomiasis	291	encephalitis	205
amoebic meningoencephalitis	291	extra corporeal membrane oxygenation	255
anti-bacterial agents	227	extracellular fluid	23
anti-fungal agent	269	extracellular Hsp72	9
antipsychotic agents	53		
		fluid responsiveness	35
bacteremia	227	genetic biomarkers	59
baylisascariasis	291	graft versus host disease	103, 133, 169
biomarker	23		
bone marrow transplant	83, 91, 115	handheld	17
bronchiolitis	205	healthcare-associated infection	281
		heart failure	67
Candida	269	heat shock proteins	9, 23
candidiasis	269	hematopoietic cell transplant	133
cardiac surgery	67	hematopoietic cell transplantation	91
cardiopulmonary bypass	9, 67	hematopoietic stem cell transplant	83, 115
catheter-associated urinary tract infection	281	hematopoietic stem cell transplantation	91, 169, 195
central line-associated bloodstream infection	281	hematopoietic stem cell	147
central nervous system	169	hemophagocytic lymphohistiocytosis	41, 243
cerebral edema	59	hepatic veno-occlusive disease	183
cerebrospinal fluid	23	hospital-onset respiratory virus infection	281
Chagas disease	291	hypercytokinemia	243
chest X-ray	29	hyperferritinemia	243
children	29, 73, 91	hyperinfection syndrome	291
chronic kidney disease	159		
computers	17	idiopathic pneumonia syndrome	147
congenital heart defects	67	immunocompromise	115
congenital heart disease	9	immunocompromised	305
continuous renal replacement therapy	41	immunomodulation	255
contrast-induced nephropathy	45	infection	23, 115, 305
critical care	115	influenza	217
critical illness	217	intensive care unit	17, 29, 115
		intensive care	83, 205
daily routine	29		
danger signals	9, 23		

lactic acidosis	73	plethysmography	35
lower respiratory tract	115	pneumonia	115, 205
macrophage activation syndrome	243	portal venous flow	183
mechanical ventilation	29, 83	propylene glycol	73
medical management	195	psychomotor agitation	53
meningitis	23	pulmonary complications	133
methotrimoprazine	53	pulmonary	115
mitochondria	255	renal dialysis	255
mortality	83	respiratory distress syndrome	147
multi-organ failure	41	resuscitation	227
multiple organ dysfunction syndrome	243	sepsis	83, 227, 243, 255
neurocysticercosis	291	septic shock	227
neuroleptic malignant syndrome	53	severe malaria	291
pandemic	217	stem cell transplantation	91
parasitic disease	291	stress proteins	9, 23
patient handoff	17	strongyloidiasis	291
pediatric hematopoietic stem cell transplant	159	substance withdrawal syndrome	53
pediatric intensive care unit	53, 195, 269, 305	surge capacity	217
pediatric parasitic disease	291	therapeutic plasma exchange	41
pediatric	17, 73, 83, 91, 103, 115, 169, 205, 227, 269	ultrafiltration	67
pentobarbital	73	vanguard	59
pilot	59	ventilator-associated pneumonia	281
plasminogen activator	183	virus	205
pleth variability index	35
