

Keyword Index Volume 2 (2013)

abscess	97, 307	Diffuse axonal injury	87
acute disseminated encephalomyelitis	57	diffusion	301
Acute ischemic stroke	269	diffusion tensor imaging	3, 17, 87, 109, 119
Adrenal cortical carcinoma	149	Discitis	153
agenesis	163	disruptive lesion	163
Angiography	293	Down syndrome	175
arteriopathy	203	DTI	131
arteriovenous malformation	277	Dural arteriovenous shunts	263
attention-deficit hyperactivity disorder	109	dural sinus malformation	263
autism	109		
AVM	189	embolization	263
axons	33, 47	Encephalopathy	319
		endovascular	283
Brain	33, 47	enterovirus 71	97
brain abscess	141	Epstein-Barr	97
brain tumors	301	ethylene glycol	73
		etiology	313
carbon monoxide	73	EXIT procedure	339
Carotid cavernous fistula	175		
Cerebellum	163	fetal hydrocephalus	325
cerebral	293	Fetal MRI	339
cerebral arterial diseases	203	fetal neck mass	339
cerebral spinal fluid	119	focal pigmentation	333
cervical spine	153	fractional anisotropy	131
Childhood	141		
children	203, 269	hemorrhagic conversion	269
Choroidal malignant melanoma	333	herpes simplex	97
Citrullinemia	169	human immunodeficiency virus	97
closed head injury	141	hydrocephalus	119, 141
computed tomography	333		
congenital muscular dystrophy	157	indirect carotid cavernous fistula	175
contrast agent	307	infection	307
corpus callosum	119	influenza A (H1N1) pdm09	319
cyclosporine	73	internal capsule	119
cystic teratoma	339	intra-arterial thrombolysis	269
Cytomegalovirus	97	Intracerebral hemorrhage	313
		Intracranial aneurysm	203
Defective axon guidance disorders	131	intracranial AVM	339
depression	109		
Developmental brain anomaly	325	kurtosis	301

Late infantile gangliosidosis	145	proton magnetic resonance spectroscopy	3, 87
leptomeningeal cyst	141	psychiatric disorders	109
leukodystrophy	33, 47	Relaxometry	3
lissencephaly	157	rubella	97
low gradient echo signal	145	schizophrenia	109
lysosome	47	semilobar holoprosencephaly	325
magnetic resonance imaging	17, 301, 333	Spinal cord	283
magnetic resonance spectroscopy	17, 33, 47, 145	spinal epidural abscess	153
magnetization transfer imaging	3	spine	149
mean diffusivity	131	sports-related white matter injury	87
methanol	73	stroke	313
methotrexate	73	substance use	109
MRI	57, 73, 145, 169, 307	swine flu	319
multiple sclerosis	57	therapeutic embolization	237
myelin	33, 47	thrombectomy	269
natural history	277	toluene	73
Neck	307	toxoplasmosis	97
neonatal	169	transvenous embolization	175
neonate	153	treatment	277
neurocysticercosis	97	trisomy 21	175
neuron	33	urea cycle	169
neurons	47	vaccination	329
NGAVF	189	varicella	329
non-accidental trauma	87	vascular malformation	283
nongalenic pial AVF	189	Vascular malformations	237
oligodendrocytes	17	vein of Galen malformations	237
opioids	73	voxel based morphometry	3
organelle	47	voxel-based morphometry	109
pediatric	57, 149, 175, 263, 277, 283, 293, 313	Wada	293
pediatric ocular malignancy	333	Walker-Warburg Syndrome	157
Pediatric stroke	329	White matter	109
peroxisome	47	white matter disease	33, 47
Pial nongalenic AVF	189		
prematurity	17, 163
