Effects of distance and duration on vertical dynamic visual acuity in screening healthy adults and people with vestibular disorders

Brian T. Peters, Helen S. Cohen, Haleh Sangi-Haghpeykar and Jacob J. Bloomberg

[*Journal of Vestibular Research* 23 (2013) 285–291]

This article was not presented at the preconference symposium on June 10, 2012, prior to the June 2012 meeting of the Bárány Society, Uppsala, Sweden and thus, should not have appeared in the *Journal of Vestibular Research* special issue entitled, “Barany Society June 10, 2012 Symposium on Measures for Level of Functioning and Quality of Life in People with Vestibular Disorders – Uppsala, Sweden.” This research was supported by NIH grant 1R01DC009031 to HSC and by a grant from the National Space Biomedical Research Institute through NASA NCC 9-58 to JJB.

Use of the Vestibular Disorders Activities of Daily Living Scale to describe functional limitations in patients with vestibular disorders

Helen S. Cohen

[*Journal of Vestibular Research* 24 (2014) 33–38]

This article, which appears in Vol.24(1), 2014 of the *Journal of Vestibular Research*, was presented at a preconference symposium on June 10, 2012, prior to the June 2012 meeting of the Bárány Society, Uppsala, Sweden and should have appeared in the special issue of the *Journal of Vestibular Research*, volume 23, number 6, entitled, “Barany Society June 10, 2013 Symposium on Measures for Level of Functioning and Quality of Life in People with Vestibular Disorders – Uppsala, Sweden”.

The original article can be viewed here: <http://iospress.metapress.com/content/ep41j0253662462m/>.

The vestibular activities and participation measure and vestibular disorders

Alia Alghwiri, Ahmad Alghadir and Susan L. Whitney

[*Journal of Vestibular Research* 23 (2013) 305–312]

In the published version of this article, an erroneous footnote appeared that “This paper was presented at the Session: Sensory Transduction at the 8th Symposium on the Role of the Vestibular Organs in Space Exploration, April 8–10, 2011, Houston, TX, USA.”
