

Erratum to: The vestibular implant: Opinion statement on implantation criteria for research

Raymond van de Berg, Angel Ramos, Vincent van Rompaey, Alexandre Bisdorff, Angelica Perez-Fornos, Jay T. Rubinstein, James O. Phillips, Michael Strupp, Charles C. Della Santina and Nils Guinand

[Journal of Vestibular Research, 30(3) (2020), pp. 213-223. DOI: 10.3233/VES-200701]

On page 215, under section 3, “VI-implantation criteria”, where it reads:

Reduced horizontal angular VOR gain ≤ 0.1 upon sinusoidal stimulation on a rotatory chair (0.1 Hz, $V_{max} = 50^\circ/\text{sec}$) and a phase lead $> 68^\circ$ (time constant < 5 sec)

Should be changed to:

Reduced horizontal angular VOR gain ≤ 0.1 upon sinusoidal stimulation on a rotatory chair (0.1 Hz, $V_{max} = 50^\circ/\text{sec}$) and a phase lead $\geq 15^\circ$ (time constant ≤ 6 sec)
