

## ANNOUNCEMENT

### **3rd International Symposium on X-Ray Microscopy Preliminary Announcement and Call for Papers**

*King's College, London, 3-7 September 1990*

Following the very successful symposia at Göttingen (1983) and Brookhaven (1987), the 3rd International Symposium on X-Ray Microscopy will be held at King's College, London, from 3rd to 7th September 1990. Oral and poster sessions are planned to cover the following broad areas:

- X-ray sources, optics, and detectors
- X-ray microscopes and imaging
- Specimen preparation, handling, environment, and damage
- Applications in biology, materials science, and other areas
- Comparisons with other techniques

Contributions in these and other relevant areas are welcomed. Invited and contributed papers will be published in a volume in the Springer Series in Optical Sciences. An associated trade exhibition and laboratory visits are also planned.

Those interested in attending should contact:
