

Keyword Index Volume 32 (2013)

accent-based	185	centralization	649
acoustic analysis	649	cerebellum	493
acoustic neuroma	455	cerebral infarct	583
acquired brain damage	771	cerebral palsy	1, 9, 17, 287
acquired brain injury	103	challenges and opportunities	751
activities of daily living	233	challenging behaviour	761
adaption	311	child problems	59
ADHD	555	children	751
adults	751	choir	929
AFO	317	CHRIST	287
aged	965	chronic stroke	323, 591
aggression	761	chronic traumatic encephalopathy	211
aging	225, 233, 409	circadian rhythm	337
ambulation	635	closed-kinetic chain exercise	385
ankle clonus	635	cognition disorders	729
ankle foot orthosis	377	cognitive assessment	253
aphasia	157, 573, 899, 915, 929	cognitive performance	687
assessment	699, 875	cognitive rehabilitation	297
assistive device	317, 833	cognitive	359
asymmetry	563	communication disorders	351
attention	33	communication	929
attention control	555	community based rehabilitation	781
autonomic dysfunction	327	community-based ambulation training	425
		compensation	311
balance confidence	117	computer	359
balance disorders	445	concussed athlete and treatment	543
balance	323, 473, 493, 957	concussion	211, 463, 473, 519, 543
battery	157	consciousness	823
benign paroxysmal positional vertigo	455	coping	721
Berg balance scale	9	cortical activation	279
bi-factor model	253	cortical disinhibition	833
biopsy	601	corticoreticular pathway	305, 655
blast forces	397	corticoreticulospinal tract	305, 655, 861
blood oxygen saturation	687	corticospinal tract	27, 305, 583, 655, 861
Bonferroni	693	cost-effectiveness	781
Botulinum toxin	635	Critical-Illness-Polyneuropathy	149
boxing	117, 211	cross-sectional area	17
brain injury literature	95	cupula	437
brain injury rehabilitation	473		
brain plasticity	27	deglutition disorders	949
brain-derived neurotrophic factor (BDNF)	573	dementia	199
brainstem	493	DEMMI scale	957
		developmental stuttering	297
carer stress	351	diffusion tensor imaging	27, 305, 583, 665
carrying weight	563	disability	69, 699

Disability and Health	729	hemisphere	609
disequilibrium	483	highly concentrated oxygen	687
dizziness	445, 455, 473, 529	holistic approaches	751
dorsal stream and ventral stream	483	holistic rehabilitation	791
dorsolateral prefrontal cortex	823	Holm's sequential	693
Downs and Black	95	hospitalization	233
dysexecutive syndrome	823	hypertonicity	885
early neurological rehabilitation	149	ICF	729
education	671	illness-related variables	59
EEG	279	imbalance	455
effort	415	inner ear	455
electrical stimulation of the urinary bladder	867	intellectually and developmentally disabled people	687
electromyography	149, 609	interdisciplinary assessment and interventions	351
emotional problems	771	inter-limb transfer	609
endurance	655	International Classification of Functioning	729
epidemiology	875	inter-patient variability	721
ethics	275	ipilateral motor cortex	617
exercise	117, 125, 141, 327	ischemic stroke	391, 573
exertion	415	isokinetic	601
existential approach	771	kinematic analysis	591
falls prevention	473	kinocilium	437
family health	59	labyrinthitis	455
fatigue	655, 875	language	915
feedback monitoring	823	language trajectory	165
five-times-sit-to-stand test	9	Latin America	679
fMRI	279	line bisection	839
foot wedge	563	long-term outcomes	225
football	211	macula	437
frontotemporolimbic damage	707	magnetoencephalography	617
functional independence measure	671	maladaptation	311
functional NIRS	861	manual dexterity	943
gait	17, 377, 635	measurement	729
gait ataxia	445	mechanisms	721
gait pattern	385	Meniere's disease	455
gait training	135, 317	mental health	679
generalization	899	meta-analysis	359
Glasgow coma scale	409	middle cerebral artery	583
Glasgow outcome scale	409	migraine	455
gross motor function	17	mild traumatic brain injury	397, 473
gym	125	Mirror illusion	617
hand paresis, ischemic stroke	573	mixed types of dysarthria	185
heart rate	687	mobility measurement	957
heart rate recovery	327	mobility outcome	957
hematoma	87	modern psychometrics	253
hemiparesis	369	mood	929
hemiparetic CP	563	mortality	225, 233

motor control	861	outcomes	671
motor function	1, 369, 583	oxidized LDL receptor gene 1	391
motor imagery training	43	parent's functioning	59
motor recovery	311	parental ABI	59
motor suppression	191	paresis	87
movement training	625	paretic limb	563
multiple sclerosis	377, 415, 655, 943	Parkinson disease	117, 649, 957, 967
muscle stiffness	833	Parkinson's disease	125, 135, 141, 949
muscle strength	287, 415	patient education	817
music	33	patients	635
music therapy	929	peak torque	601
music-speech protocol development	185	pediatric vestibular deficits	507
myopathy	601	pediatric vestibular rehabilitation	507
National Alzheimer's Coordinating Center (NACC)	199	pediatric vestibular testing	507
neglect	33, 839	PEDro	95
neglect rehabilitation	43	perception	415
nerve conduction studies	149	physical fitness	327
neurobehavioral functioning	729	physiotherapy	135
neurobehavioural	699, 791	plantar pressure distribution	385
neurobehavioural disorder	781	plasticity	311
neurocognitive assessment	473	positron emission tomography imaging	397
NEurocognitive Joyful Attentive Training Intervention (NEJATI)	297	post-concussion	397
neurogenic urinary bladder dysfunction	867	posterior fossa tumor	165
neuroimaging	707	prediction	803
neurological surgery	817	primary motor cortex	191
neuro-optometric rehabilitation therapy	483	prism adaptation	839
neuropsychological deficits	555	prognosis	87, 345, 391
neuropsychological examinations	275	prospective memory	103
neuropsychological rehabilitation	751, 839	psychosocial functioning	267
neuropsychological training	555	psychosocial issues	351
neuropsychology	253, 693	psychotherapy	771
neurorehabilitation	791	quality assessment tools	95
nitric oxide	141	quality of life	117, 125, 337
non-fluent aphasia	915	questionnaires	729
nystagmus	455, 493	rating scale	415
older adults	267	reaching movement	591
online	817	readability	817
open loop pointing	839	recovery	87
open-kinetic chain exercises	385	rehabilitation	27, 33, 69, 103, 233, 377, 573, 591, 625, 635, 655, 721, 761, 817, 915, 949, 967
operant learning theory	761	reliability	157
orthosis	317	repetitive transcranial magnetic stimulation (rTMS)	573
orthostatic hypotension	529	review	359, 781
orthotic devices	377	right-hemispheric brain lesion	43
osteopathy	135	risk-adapted treatments	165
ototoxicity	529	robotic-assisted gait training	833
outcome	803		
outcomes measures	463		

robotics	625	timed up and go	9
rTMS	823	TMS	915
running	17	topographical map	279
		transcranial direct current stimulation	191
sacculae	437	transcranial magnetic stimulation	915
segmental muscle vibration	591	Traumatic brain injuries	233
semantic feature treatment	899	traumatic brain injury (TBI)	199
semicircular ducts	437	traumatic brain injury	69, 211, 225, 267, 409, 463, 519, 671, 699, 707, 721, 729, 751, 771, 781, 791, 803, 875
sensory deficits	943	treatment	875
sensory retraining	943	trunk impairment	323
severity	233	type I error	693
sexual function	69	upper extremity	287, 345, 415
sexuality	69	upper limb	885
sexual therapy	69	urodynamic examination	867
singing	929	utricle	437
skeletal muscle	601	validity	157
sleep-wake	337	ventilator therapy	149
social brain	707	vertigo	445, 455, 493, 529
social support	125	vestibular	437
spasticity	1, 369, 885	vestibular and balance dysfunction	543
spatial neglect	43	vestibular apparatus	437
spinal cord injury	425	vestibular dysfunction	445
spinal injuries	867	vestibular neuritis	455
splinting	885	vestibular rehabilitation therapy	543
sports injury	473	vestibular rehabilitation	463, 519
stereocilia	437	vestibular nuclear complex	437
stop-signal task	191	vestibular ocular reflex	437, 455, 483
straight ahead	839	vestibular spinal reflex	437
stretch	369	vibration platform	655
stretching	625	vibration therapy	1
striola	437	virtual reality	103
stroke patients	185	vision	493
stroke	27, 33, 43, 87, 305, 311, 327, 337, 345, 351, 359, 369, 377, 625, 655, 833, 915, 929	visual-vestibular disorder	483
superior canal dehiscence syndrome	455	visuospatial training	43
surface electromyography	415	VOR	483
susceptibility	391	vowel space area	649
systematic	359	walking ability	655
TBI caregivers	679	walking	425, 967
TBI	445	WBV	655
technology	781	weight bearing	563
telephone	253	well-being	929
tests	729	whole body vibration	655
theory of mind	707	word retrieval	899
Thera-band	317		
therapies	233		
therapy	359
