

Keyword Index Volume 35 (2014)

ABI	47	community integration	863
accidental falls	279, 503	community-based	105
acquired brain injuries	467	consciousness disorders	253
acquired brain injury	253	constraint-induced movement therapy	391
action observation	579	control strategies	701
activities of daily living	315, 381, 467	coping	1
activities of daily living	835		
acute rehabilitation	615	database management systems	171
aged	261	deep brain stimulation	779
air-stacking exercise	459	deglutition	535
ALS	307	dense acute parietal strokes	451
Amyotrophic Lateral Sclerosis	349, 535	diaphragm	349
anti-apoptosis	825	disability	67
anti-inflammatory	825	disease progression	535
antioxidant	825	dynamic ankle-foot-orthosis	369
APA	789	dysarthria	535, 719
apallic	235	dysphagia	719, 795
aphasia	615, 719		
assessment	67, 435, 553, 729	EDSS	97
assistance	689	education	89
assistive technology	253	EEG-NFT	481
		elasticity score index	123
Balance (static)	851	electrical stimulation	31
balance	271, 579	electromyography	405
BICRO	863	electrostimulation	427
biofeedback	795	EMG	299
Bland-Altman tests	597	EMG-force relation	307
botulinum toxin type-A	25	emotional	67
brain injuries	635	endurance exercise	805
brain injury	39, 67, 475, 485, 563, 755	energy expenditure	509
		error-monitoring	315
cardiovascular training	291	executive function	553
Carpal Tunnel Syndrome	543	exercise	271, 291, 763
case management	635	extensive motor disabilities	253
CBT	627	extracorporeal shock wave therapy	227, 235
cerebral ischemia reperfusion injury	825		
cerebral palsy	123, 131, 643, 657	family relationships	475
cerebral stroke	427	family	1
children	597, 657	fatigue	503, 529
chronic aphasia	711	FDI	307
Chronic Fatigue Syndrome	529	fertility	863
circulating progenitor cells	763	FES	459
clinical applicability	563	fNIRS	579
cognition	57, 279, 315, 863	foot deformity	369
cognitive test	771	foot drop	299
cognitive training	137, 159, 261	functional electrical stimulation	299, 325, 381
combat	147	functional magnetic resonance imaging	131

functional outcome	341	mood	57
functional recovery	17, 205	motor control	689
functional status	1	motor disability	39
		motor learning	579
gait analysis	779	motor	17, 381, 415
gait cycle	597, 657	MRI scan	481
gait rehabilitation	701	multimodal treatment	615
gait training	643	multiple sclerosis	105
gait	681, 729	Multiple Sclerosis	89, 97, 315, 503, 509, 519, 529, 805, 813
galvanic vestibular stimulation	31	muscle size	131
gastrocnemius muscle	123	muscle spasticity	25
GestureTek	563	muscle strength	503
glucose uptake	813	muscular activity	369
		myalgic encephalitis	529
hand function	427, 673	myofascial trigger points	607
haptics	435		
health resources	171	nerve conduction study	543
hemiparesis	39	neurobehavioral symptoms	147
hemiplegic cerebral palsy	597	neurobehavioral	67
hemiplegic gait	299	neurologic injuries	701
hope	475	neurological disorders	105, 719
hybrid	325	neuromuscular electrical stimulation	363
hydrocephalus	755	neuromuscular imbalance	587
hypoalgesia	607	neuro-physiotherapy	451
		neuroplasticity	131
ICF	519	neuroprotection	825
impaired self-awareness	315	neuropsychological rehabilitation	519
<i>in vivo</i> changes	481	neuropsychological scores	481
inpatient rehabilitation	17	neuropsychological tests	137
inspiratory muscle strength	349	neurorehabilitation	47, 67, 137, 553
instruments	67	neurosurgery	665
interdisciplinary	9	NMDAR	863
isometric contraction	307		
		objective measurement	493
kinematic	369	observation based rehabilitation	665
		obstructive sleep apnea	245
lightning injury	137	OKCSIB protocol	451
locomotor system	779	older adults	159
long-time average spectrum	77	older drivers	771
lower limb recovery	451	onabotulinumtoxinA	25
lower limb	25, 381	online awareness	47
LTAS	77	operations research	171
		optokinetic chart stimulation	451
managed care programs	635	orthosis	325
measure	67	outcome	9, 67, 221, 755, 835
measurement	485	oxidative capacity	805
medical	89	oxygen uptake kinetics	805
memory	553		
mental health	841	pain	227
meta-analysis	205, 771	paraesthesia	227
MIDI-keyboard playing	673	Parkinson disease	77
mild cognitive impairment	261	Parkinson's disease	105, 279, 291, 493, 779, 789, 795
mild cognitive impairment	271	participation	105
mirror neurons	665	passive muscle stiffness	643
mobility limitation	279, 503	PC-training	711
mobility	205	peak plantar pressures	597
Modified Barthel Index	835	personnel management	171

personnel staffing and scheduling	171	Semmes-Weinstein Monofilament Test	543
phonation	77	service member/veteran	147
photogrammetry	181	severe stroke patients	363
physiatry	89	severe	17
physical and rehabilitation medicine	89	shoulder	191
physical exercise	57	single case study	261
physiological health	325	sitting	181
physiology	763	sleep	245
plantar pressures	657	sleep	485
plasticity	415	social support	1, 841
polyneuropathy	227	social validation	253
polysomnography	245	somatosensory evoked potentials	835
Positron Emission Tomography	813	spastic diplegic CP	587
post-secondary experience	147	spasticity	123
postural alignment	181	speech language pathologist	719
postural balance	503	spinal cord injury	325, 835
postural control	181	stabilometric platform	851
posture control	31	stiff man syndrome	627
posture	181, 729	Stiff Person Syndrome	627
posturography	271	strapping	191
prediction	755	strength asymmetries	813
predictors	341	strength training	131
propofol-dexmedetomidine combination	825	stroke rehabilitation	673
psychotherapy	627	stroke	1, 9, 31, 39, 105, 17, 191, 205, 215, 221, 299, 381, 391, 405, 435, 615, 681, 711, 729, 741
pulmonary function test	459	surface electromyography	795
Pulmonary rehabilitation	459	survival analysis	535
pusher behavior	31	swallowing	795
QoL	789	systems theory	171
QOLIBRI	863	tactile sensory modulation	607
quality of life	1, 97, 105, 291, 315, 493, 509, 863	task performance	47
randomized clinical trial	391	task-oriented rehabilitation	509
reaching movement	405	TBI	481, 741
reciprocal inhibition	587	TBI/PTSD	147
recovery	215, 415	tDCS	741
rehabilitation outcome	863	therapy	553
rehabilitation psychology	253	thrombolysis	9
rehabilitation treatment	835	tissue plasminogen activator	9
rehabilitation	9, 31, 123, 191, 205, 221, 299, 341, 391, 405, 435, 475, 553, 563, 597, 635, 657, 689, 741, 755	training	349
remote pain control	607	transcranial magnetic stimulation	415
repetitive transcranial magnetic stimulation	363	transcutaneous electrical nerve stimulation	607
resistance training	291	transfer	159
review	635	traumatic brain injury	57, 245, 763
rhythmic auditory stimulation	681	traumatic spinal cord injury	341
rigidity	493	traumatic	755
robot desing	701	trunk control	215
robot	689	trunk exercise	205
robotic orthosis	701	trunk restraint	391
robotic	325	trunk	493
robotic-assisted rehabilitation	779	tubing gait	587
scale	67, 729	unresponsive wakefulness syndrome	235
SCI caregivers	841	unsafe driving	771
		upper extremity	415, 741

upper limb recovery	451	VO _{2peak}	97
upper limb	191, 689	voice	77
UPRDS	291	walking ability	325
ventilatory anaerobic threshold (VAT)	97	walking kinematics	227
vibration therapy	405	walking	729
Vietnamese	851	wheelchairs	467
virtual reality	435, 563	whole-body cooling	805
visual handicap	851	working memory	159
