

Keyword Index Volume 39 (2016)

acquired brain damage	20	coping skills	224
acquired brain injury	45, 135, 191, 205	co-production	471
acquired dyslexia	111		
action disorganisation syndrome	163	3D supporting garment	175
action research	261	decision making	125
activities of daily living	285	dementia	319, 329
adolescents/youth/young people	519	depression	254
aetiology	53	diagnosis	371
aggressive behavior	205	disability evaluation	285
alcohol and drug abuse	363	driving	239
Amyotrophic Lateral Sclerosis	273	dynamic assessment	20
anger management	153	dysarthria	254
anger	224	dysphagia	273
Animal Assisted Therapy	135		
anomia	81	early rehabilitation	451
anosognosia	45	ecological plasticity	20
aphasia	141	ecologically-valid assessment	191
aphasia	3, 81, 97	elementary school	119
apraxia	163	emotional impairments	37
arm	402	engagement	499, 507
assessment	239	evidence based practice	205
assistive technology	499	executive function	53
attribution theory	125	executive functioning	45
attributions	153	exercise	507
augmentative and alternative communication	499		
awareness	45	facial palsy	254
axon	413	facilitators	389
		fampridine	302
Balint's Syndrome	111	fatigue	363
barriers to rehabilitation	329	Feuerstein's theory of structural cognitive modifiability	20
barriers	389	forensic psychology	125
behavioural mapping	431	functional task execution	191
brain injuries	65, 224, 371		
brain injury	37, 53, 153	gait	302
brain volume	535	gait speed	305
		Glasgow Coma Scale (GCS)	423
caregivers	224	group treatment	81, 97
carer strain	53		
case report	261	health confidence	465
cerebral palsy	175	health education	519
chronic stroke	261	health services for persons with disabilities	285
cognition	371, 535	health services research	65
cognitive function	319	health services use	352
cognitive intervention	319	healthcare engagement	519
cognitive rehabilitation	20, 119, 135, 163	hostility bias	153
constraint induced aphasia therapy	97		

human	413	peripheral nerve	413
hypotension	423	peripheral nerve stimulation	439
hypoxia	111	perspective taking	153
		perspectives training	153
injury	352	physiotherapy	261
injury causes	345	postural control	175, 305
injury prevention	345	primary progressive aphasia	141
inpatient rehabilitation	423	psychological interventions	205
intensity	507		
interjoint coordination	175	qualitative	507
		quality of life	254, 285, 295, 535
jury	125	questionnaires	285
lack of balance and coordination	363	reading	111
learning disabilities	37	reflected appraisal	45
lesion volume	535	rehabilitation	3, 65, 81, 97, 205, 239, 277, 285, 329, 371, 431, 481, 507
long-term conditions	471	rehabilitation responder	423
		rehabilitation-robotics	402
mediated learning experience	3, 20	reliability	183
mental health	224	repeat TBI	363
meta-analysis	205, 319	return to work	389
middle school	119	robot-assisted upper extremity motor training	439
mild cognitive impairment	329	robotics	277
morphometry	413		
motor recovery	402	seizure	363
motor vehicle crash	352	self-appraisal	37, 45
MRI	535	self-appraisal assessments	37
multiple sclerosis	302, 305, 535	self-management	471
		sense of coherence	285
neurodevelopmental treatment	183	service dog	135
neurological disorder	413	sex difference	413
neuromuscular disorders	519	simulator	239
neuroplasticity	261, 439	single case experimental design	205
neuropsychological rehabilitation	53	skilled nursing facility	481
neuropsychology	65	social media	499
neurorehabilitation	37	social support	224
non-invasive brain stimulation	402	spasticity	277
		spinal cord injury	277, 402
oro-pharyngeal	273	stroke	65, 141, 254, 431, 451, 471, 507
outcome and process assessment	65		
outcomes	465	structural cognitive modifiability	3
		systematic review	119, 431
pain	277, 535		
Parkinson's disease	285, 295	task planning	191
Patient activation	465	telehealth	329
patient engagement	465	therapeutic engagement	481
patient-centered	465	therapy	135
pediatric	119	therapy dog	135
perception	125	traction technique	183
perceptions/experiences	519	transcranial direct current stimulation	141, 439
performance judgments	37		

transcranial magnetic stimulation	439	vision disorders	451
traumatic brain injury	125, 239, 345, 352, 363, 389, 423	visual deficits	451
treadmill training	295	visual rehabilitation	451
trunk endurance	305	volunteer	97
ultrasound	183	WAIS	37
unintentional injuries	371	walking	302
unintentional injury	345	water exercise	295
unintentional injury prevention	363	Wechsler Adult Intelligence Scale	37
upper limb	431	word retrieval	81
verdict	125		
veterans	352
