NeuroRehabilitation 9 (1997) 253–255

NeuroRehabilitation

An Interdisciplinary Journal

Subject index

Volume 9 (1997)

Acquired brain injury; Educational planning; Educational strategies; Student outcomes 9, 133

Acute disseminated encephalomyelitis; Acute inflammatory demyelinating polyneuropathy; Rehabilitation 9, 237

Acute inflammatory demyelinating polyneuropathy; Acute disseminated encephalomyelitis; Rehabilitation 9, 237

Agitation; Anosognosia; Environmental modifications; Outcome 9, 221

Anosognosia; Agitation; Environmental modifications; Outcome 9, 221

Aphasia; Speech production; Left vs. right hemisphere 9, 89

Apraxia; Praxis; Right hemisphere; Skilled movements 9, 45

Behavior; Stroke; Rehabilitation; Therapy; Upper extremity; Motor control 9, 29

Behavioral arousal; Sensory stimulation; Comatose; Tetraplegic 9, 227

Bilateral deficits; Kinematic analysis; Fitts tapping task 9, 71

Brain injury information; Pediatrics; Families; Educators; Clinicians; Internet 9, 149

Brain injury; Traumatic; Strategies; People 9, 205

CNS; Neural regeneration; Spinal cord; Neural grafting 9, 187

Cerebrovascular accident; Motor performance; Muscle activation; Weakness 9, 3

Children; Families; Traumatic brain injury; Practical strategies 9, 159

Children; Head injury; Traumatic brain injury; Clinical pathways 9, 123

Clinical pathways; Children; Head injury; Traumatic brain injury 9, 123

Clinicians; Brain injury information; Pediatrics; Families; Educators; Internet 9, 149

Cognistat (NCSE); Elderly; Cognitive assessment; Dementia; Neurosurgical 9, 179

Cognitive assessment; Cognistat (NCSE); Elderly; Dementia; Neurosurgical 9, 179

Comatose; Sensory stimulation; Behavioral arousal; Tetraplegic 9, 227

Deglutition disorders; Dysphagia; Long-term follow-up; Swallowing disability; Swallowing therapy; Deglutition 9, 195

Deglutition; Dysphagia; Long-term follow-up; Swallowing disability; Swallowing therapy; Deglutition disorders 9, 195

Dementia; Cognitive assessment; Cognistat (NCSE); Elderly; Neurosurgical 9, 179

Development; Pediatric traumatic brain injury; Rehabilitation; Transitions 9, 105

Dysphagia; Long-term follow-up; Swallowing disability; Swallowing therapy; Deglutition; Deglutition disorders 9, 195

Educational strategies; Acquired brain injury; Educational planning; Student outcomes 9, 133

Educational planning; Acquired brain injury; Educational strategies; Student outcomes 9, 133

- Educators;** Brain injury information; Pediatrics; Families; Clinicians; Internet 9, 149
- Elderly;** Dementia; Cognitive assessment; Cognistat (NCSE); Neurosurgical 9, 179
- Emergency services;** Pediatric; Traumatic brain injury; Trauma services; Rehabilitation services 9, 113
- Environmental modifications;** Anosognosia; Agitation; Outcome 9, 221
- Epidemiology;** Violence-related injuries; Prevention 9, 167
- Families;** Brain injury information; Pediatrics; Educators; Clinicians; Internet 9, 149
- Families;** Children; Traumatic brain injury; Practical strategies 9, 159
- Fitts tapping task;** Kinematic analysis; Bilateral deficits 9, 71
- Head injury;** Children; Traumatic brain injury; Clinical pathways 9, 123
- Internet;** Brain injury information; Pediatrics; Families; Educators; Clinicians 9, 149
- Kinematic analysis;** Bilateral deficits; Fitts tapping task 9, 71
- Left vs. right hemisphere;** Speech production; Aphasia 9, 89
- Long-term follow-up;** Dysphagia; Swallowing disability; Swallowing therapy; Deglutition; Deglutition disorders 9, 195
- Motor control;** Stroke; Rehabilitation 9, 57
- Motor control;** Stroke; Rehabilitation; Therapy; Upper extremity; Behavior 9, 29
- Motor performance;** Muscle activation; Cerebrovascular accident; Weakness 9, 3
- Muscle activation;** Motor performance; Cerebrovascular accident; Weakness 9, 3
- Neural grafting;** Neural regeneration; CNS; Spinal cord 9, 187
- Neural regeneration;** CNS; Spinal cord; Neural grafting 9, 187
- Neurosurgical;** Cognitive assessment; Cognistat (NCSE); Elderly; Dementia 9, 179
- Outcome;** Anosognosia; Agitation; Environmental modifications 9, 221
- Pediatric traumatic brain injury;** Rehabilitation; Transitions; Development 9, 105
- Pediatric;** Traumatic brain injury; Emergency services; Trauma services; Rehabilitation services 9, 113
- Pediatrics;** Brain injury information; Families; Educators; Clinicians; Internet 9, 149
- People;** Brain injury; Traumatic; Strategies 9, 205
- Practical strategies;** Families; Children; Traumatic brain injury 9, 159
- Praxis;** Apraxia; Right hemisphere; Skilled movements 9, 45
- Prevention;** Violence-related injuries; Epidemiology 9, 167
- Reflex sympathetic dystrophy;** Vocational rehabilitation; Return-to-work 9, 213
- Rehabilitation services;** Pediatric; Traumatic brain injury; Emergency services; Trauma services 9, 113
- Rehabilitation;** Acute inflammatory demyelinating polyneuropathy; Acute disseminated encephalomyelitis 9, 237
- Rehabilitation;** Pediatric traumatic brain injury; Transitions; Development 9, 105
- Rehabilitation;** Stroke; Motor control 9, 57
- Rehabilitation;** Stroke; Therapy; Upper extremity; Motor control; Behavior 9, 29
- Resistive exercise;** Stroke; Spasticity 9, 17
- Return-to-work;** Reflex sympathetic dystrophy; Vocational rehabilitation 9, 213
- Right hemisphere;** Apraxia; Praxis; Skilled movements 9, 45
- Sensory stimulation;** Behavioral arousal; Comatose; Tetraplegic 9, 227
- Skilled movements;** Apraxia; Praxis; Right hemisphere 9, 45
- Spasticity;** Stroke; Resistive exercise 9, 17
- Speech production;** Left vs. right hemisphere; Aphasia 9, 89

- Spinal cord;** Neural regeneration; CNS; Neural grafting 9, 187
- Strategies;** Brain injury; Traumatic; People 9, 205
- Stroke;** Motor control; Rehabilitation 9, 57
- Stroke;** Rehabilitation; Therapy; Upper extremity; Motor control; Behavior 9, 29
- Stroke;** Spasticity; Resistive exercise 9, 17
- Student outcomes;** Acquired brain injury; Educational planning; Educational strategies 9, 133
- Swallowing disability;** Dysphagia; Long-term follow-up; Swallowing therapy; Deglutition; Deglutition disorders 9, 195
- Swallowing therapy;** Dysphagia; Long-term follow-up; Swallowing disability; Deglutition; Deglutition disorders 9, 195
- Tetraplegic;** Sensory stimulation; Behavioral arousal; Comatose 9, 227
- Therapy;** Stroke; Rehabilitation; Upper extremity; Motor control; Behavior 9, 29
- Transitions;** Pediatric traumatic brain injury; Rehabilitation; Development 9, 105
- Trauma services;** Pediatric; Traumatic brain injury; Emergency services; Rehabilitation services 9, 113
- Traumatic brain injury;** Children; Head injury; Clinical pathways 9, 123
- Traumatic brain injury;** Families; Children; Practical strategies 9, 159
- Traumatic brain injury;** Pediatric; Emergency services; Trauma services; Rehabilitation services 9, 113
- Traumatic;** Brain injury; Strategies; People 9, 205
- Upper extremity;** Stroke; Rehabilitation; Therapy; Motor control; Behavior 9, 29
- Violence-related injuries;** Prevention; Epidemiology 9, 167
- Vocational rehabilitation;** Reflex sympathetic dystrophy; Return-to-work 9, 213
- Weakness;** Motor performance; Muscle activation; Cerebrovascular accident 9, 3
