

Keyword Index Volume 13 (2016)

aircraft de-icing	79	lumbar support	3
anthropometry	157	musculoskeletal modeling	131
anti-vibration glove	23, 45	MVC strength	91
AnyBody™ modeling	139	NASA-TLX	101
asymmetric lifting	139	neck load	119
Bangladesh	157	night-vision goggles	119
biodynamic response	53	non-hazardous and hazardous slips	67
biomechanical evaluation	139	operator reported comfort	15
biomechanics	147	passenger seat	157
boot design	147	perceived discomfort	91
centre of pressure	147	protective boots	147
construction	45	rubber and leather boots	67
discrepancy	157	seat selection	15
driving simulator	101	shoulder	91
fatigue	79	shoulder strain	131
finger vibration	23	slips	67
firefighter	67	spinal forces	139
firefighters	147	standing vibration	53
foot-transmitted vibration	53	static force exertions	131
hand-arm vibration	23	static posture	119
hand-arm vibration syndrome	23, 45	training	45
hand-transmitted vibration	23	velocity of centre of pressure	147
heavy equipment seating	3	vibration-induced white-feet	53
helicopter helmet	119	whole-body vibration	3, 15
individual differences	101	work zone safety	101
injury prevention	147	workload	79, 101
ISO 2631-1(1997)	15		
landing forces	147		
long haul bus	157
