

Erratum

Erratum to: Can preoperative quantitative sensory testing predict persistent post-operative knee pain following total knee replacement? A systematic review

Michael Mansfield, Veneta Kumar and Gareth Stephens

[Physiotherapy Practice and Research, vol. 45(1) (2024), 77-93. DOI 10.3233/PPR-240892]

<http://doi.org/10.3233/PPR-240892>

In the originally published version, the first name of the second author was misspelled. The correct author name is Veneta Kumar. This has been corrected in the online version of the paper.
