

## **Editor's Note**

The articles in this issue by Saldner, Tiziani and Pedrini, Arruda et al., Li et al., and Stanbridge and Ewins were presented in an earlier form at the 1st International Conference on Vibration Measurements by Laser Techniques, Ancona, Italy, October 1994. The conference was organized by the Italian Association of Laser Velocimetry. The articles were selected, edited, and reviewed by a committee chaired by:

Professor Enrico Primo Tomasini  
Department of Mechanics  
Faculty of Engineering  
University of Ancona, Italy
