

Author Index Volume 29

The issue number is given in front of the pagination

- Al-Jabor, W. and P. Ucar, Qatar Statistics Authority's initiatives to develop statistical literacy in Qatar (3) 147–152
- Baffour, B., J.J. Brown and P.W.F. Smith, An investigation of triple system estimators in censuses (1) 53–68
- Barham, C., see Laux, R. (3) 209–221
- Brown, J.J., see Baffour, B. (1) 53–68
- Chiu, R., Psst, what's the gossip? (3) 167–171
- Courtney, M.M., Consumer price indices and the identification problem (1) 41–51
- Cuppen, M., P. Van der Laan and W. Van Nunspeet, Re-engineering Dutch social surveys: From single-purpose surveys to an integrated design (1) 21–29
- de Martino, V., S. Rossetti and D. Rossi, New approaches for an effective e-dissemination of statistics: The case of Noi Italia – 100 statistics to understand the country we live in (3) 159–166
- Elliott, D., see Winton, J. (1) 11–19
- Forbes, S.D., see Harraway, J.A. (1) 31–40
- Harraway, J.A. and S.D. Forbes, Partnership between national statistics offices and academics to increase official statistical literacy (1) 31–40
- Hudec, M., Fuzzy database queries in official statistics: Perspective of using linguistic terms in query conditions (4) 315–323
- Ibáñez Salinas, M., Exploratory analysis of the patterns of missing data in the UIS education database (1) 3–10
- Kimura, M., see Makita, N. (3) 223–232
- Kobayashi, M., see Makita, N. (3) 223–232
- Laux, R. and C. Barham, Can't see the wood for the trees? Using statistical frameworks to draw the bigger picture (3) 209–221
- Letheby, R., Statistical literacy: Bringing concepts to life – recent experiences of the Australian Bureau of Statistics (3) 153–157
- Makita, N., M. Kimura, M. Terada, M. Kobayashi and Y. Oyabu, Can mobile phone network data be used to estimate small area population? A comparison from Japan (3) 223–232
- Michalopoulou, C., A historical appraisal of Greek survey sampling practices (4) 259–268
- Nielsen, M.G., see Thygesen, L. (4) 301–313
- Nymand-Andersen, P., Communicating central banking statistics: Making useful sense of statistics in a dynamic world (4) 269–280
- Nymand-Andersen, P., Safeguarding trust in statistics and the new statistical voice (3) 233–246
- O'Neill, R., see Winton, J. (1) 11–19
- Oyabu, Y., see Makita, N. (3) 223–232
- Ramachandran, R., The increasing role of the third sector in official statistical collation: The national information communications technology association of Malaysia's experience (3) 197–207
- Ritchie, F., International access to restricted data: A principles-based standards approach (4) 289–300
- Rossetti, S., see de Martino, V. (3) 159–166
- Rossi, D., see de Martino, V. (3) 159–166
- Smith, A., Data visualisation and beyond: A multi-disciplinary approach to promote user engagement with official statistics (3) 173–185
- Smith, P.W.F., see Baffour, B. (1) 53–68
- Terada, M., see Makita, N. (3) 223–232

Thygesen, L. and M.G., Nielsen, How to fulfil user needs – from industrial production of statistics to production of knowledge (4) 301–313

Turut, S., see Van Halderen, G. (3) 187–196

Ucar, P., see Al-Jabor, W. (3) 147–152

Van der Laan, P., see Cuppen, M. (1) 21–29

Van Halderen, G. and S. Turut, Measuring what matters: Can National Statistical Organisations embrace social media? (3) 187–196

Van Nunspeet, W., see Cuppen, M. (1) 21–29

Winton, J., R. O'Neill and D. Elliott, Elementary aggregate indices and lower level substitution bias (1) 11–19

Zarova, E., Spatial harmonization of economic cycles: Statistical confirmation of European-Russian interaction in real sectors of the economy (4) 281–287
