Journal of Official Statistics

An International Review Published by Statistics Sweden

JOS is a scholarly quarterly that specializes in statistical methodology and applications. Survey methodology and other issues pertinent to the production of statistics at national offices and other statistical organizations are emphasized. All manuscripts are rigorously reviewed by independent referees and members of the Editorial Board.

All inquiries about submissions and subscriptions should be directed to jos@scb.se

Contents Volume 19, Number 2, 2003

Weighting Methods <i>Graham Kalton and Ismael Flores-Cervantes</i>	81
Penalized Spline Model-Based Estimation of the Finite Populations Total from Probability-Proportional-to-Size Samples <i>Hui Zheng and Roderick J.A. Little</i>	99
Optimal Calibration Estimators Under Two-Phase Sampling <i>Changbao Wu and Ying Luan</i>	119
A Method for Estimating Design-based Sampling Variances for Surveys with Weighting, Poststratification, and Raking <i>Hao Lu and Andrew Gelman</i>	133
Prevention and Treatment of Item Nonresponse <i>Edith D. de Leeuw, Joop Hox and Mark Huisman</i>	153
Score Functions to Reduce Business Survey Editing at the U.K. Office for National Statistics <i>Dan Hedlin</i>	177
