

List of documents issued by the Conference of European Statisticians

July 1983–June 1984

Copies of the documents listed can be obtained (subject to availability) from the Statistical Division of the ECE, Palais des Nations, CH-1211 Geneva 10. Documents are generally available in English, French and Russian.

- The organization of statistical services - centralization and decentralization (CES/504)
- Organization of electronic data processing in official statistics (CES/504/Add.1)
- Some aspects of centralization and decentralization in electronic data processing in the system of the USSR Central Statistical Board (CES/504/Add.2)
- Organization of statistical data processing - centralization and decentralization (CES/504/Add.3)
- Organization of electronic data processing in national statistical offices - centralization versus decentralization: The French Agricultural Statistics System (CES/504/Add.4)
- Centralized versus decentralized data processing in statistical organizations (CES/504/Add.5)
- Development of training programmes for personnel of statistics offices in the light of new technological development (CES/505)
- Improvement of professional qualification in the field of statistics in the Socialist Republic of Romania (CES/505/Add.1)
- Training programmes for statistical personnel in view of technological changes: the Turkish case (CES/505/Add.2)
- Development of training programmes for personnel of statistical offices in the light of new technological developments (CES/504/Add.3)
- New technology and Yugoslav statistics (CES/505/Add.4)
- Statistical activities under the programme of the subsidiary bodies of the Economic Commission for Europe in 1984/1985 (CES/506)
- Statistical activities of international organizations (CES/507)
- Statistical work of the Commission of the European Communities (CES/50)/Add.1)
- Statistical activities of the Organisation for Economic Co-operation and Development (CES/50)/Add.2)
- Information on multilateral co-operation among member countries of the

Council for Mutual Economic Assistance in the field of statistical methodology in 1983-1984 (CES/507/Add.3)

- The activities of the Council of Europe in the statistical field (CES/507/Add.4)
- Co-operation of the ECE secretariat with other international organizations (CES/50)/Add.5)
- Statistical co-operation between the Nordic countries (CES/507/Add.6)
- Statistical report on activities of the ECE/UNDP statistical computing project in 1983 (CES/508)
- Progress report on the activity of the Computing Research Centre, Bratislava, for 1983 (CES/509)
- Training activity of SZAMALK in 1983 (CES/510)
- Topics for substantive discussion at the thirty-third and later plenary sessions (CES/511)
- Possible areas of international comparisons within the programme of work of the Conference of European Statisticians (CES/512)
- International comparisons (CES/513)
- Summary of the results of the European comparisons programme (CES/514)
- Statistics of water use and quality (CES/515)
- Statistics of air quality (CES/516)
- Statistics of solid wastes (CES/517)
- General methodological problems in environment statistics (CES/518)
- Price observations carried out by ECE member countries in other countries (CES/519)
- Programme of work for 1984/85-1988/89 (CES/520)
- Continuation of the Statistical Computing Project after 1984 (CES/521)
- Direction of work of the CES in the field of the use of computers for statistical purposes (CES/522)
- Review of the European comparison programme (CES/523)
- Towards a system of indicators characterizing the economic and social development of a country (CES/524)
- Grouping of meetings in the field of environment statistics (CES/525)
- Matters arising from the thirty-ninth session of the Economic Commission for Europe (CES/526)
- Report of the thirty-second session of the Conference of European Statisticians (ECE/CES/24)
- Usage of sampling methods in different phases of the censuses of population and/or housing conducted in ECE countries in or around 1980 (CES/SEM.17/2)
- Plans for future work on the preparation of recommendations for the 1990 round of population and housing censuses in the ECE region (CES/SEM.17/3)
- Report of the Seminar on the evaluation of census results and methodologies held in Rome, 7-11 May 1984 (CES/SEM.17/4)
- Problems on the integration of the population census and the system for civil registration (CES/SEM.17/R.1)
- Automatic processing of the results of the 1980 population and household census in Czechoslovakia (CES/SEM.17/R.2)
- Problems experienced during the preliminary, main and follow-up surveys -

- problems of the 1983 population census in the Federal Republic of Germany (CES/SEM.17/R.3)
- The 1980 population and housing census of Hungary - evaluation of the census results and methods (CES/SEM.17/R.4)
 - Preparatory work, data collection and other operations in the 1981 population census of Italy (CES/SEM.17/R.5)
 - Problems encountered in the pre-enumeration phases of the Norwegian population and housing census 1980 (CES/SEM.17/R.6)
 - The influence of preparatory works on the completeness of census (CES/SEM.17/R.7)
 - Automated coding of occupation and socio-economic classification in the 1980 census of population (CES/SEM.17/R.8)
 - Diagrams and thematic mapping in the Swedish population and housing census of 1980 (CES/SEM.17/R.9)
 - Preparatory work in the field for the 1977 population and housing census in Romania (CES/SEM.17/R.10)
 - The organization and conducting of population censuses in the Soviet Union (CES/SEM.17/R.11)
 - Problems encountered in different phases of the census - the case of the United Kingdom (CES/SEM.17/R.12)
 - The experience of the people's Republic of Bulgaria in a sample application at the different stages of the population census (CES/SEM.17/R.13)
 - The use of sampling in the 1981 census of Canada (CES/SEM.17/R.14)
 - National experience regarding the use of sample surveys during the various phases of census-taking (CES/SEM.17/R.15)
 - Use of the sampling method in the 1981 census of population in Italy (CES/SEM.17/R.16)
 - Norwegian experiences in the use of sampling in different phases of the census (CES/SEM.17/R.17)
 - Polish experiences in the use of sampling in population censuses in 1950–1983 (CES/SEM.17/R.18)
 - Sampling in the 1981 census in the United Kingdom (CES/SEM.17/R.19)
 - Two instances of sample checking of the coding and collection of data from the French census of 1982 (CES/SEM.17/R.20)
 - Measuring the quality of data in the 1981 census of population and housing of Canada (CES/SEM.17/R.21)
 - Quality of census data in Italy (CES/SEM.17/R.22)
 - The 1980 Federal population census: ways of filling in gaps and correcting individual forms (CES/SEM.17/R.23)
 - Checks of the coverage of the 1981 censuses in the United Kingdom (CES/SEM.17/R.24)
 - Statistics for small areas (CES/SEM.17/R.25)
 - Data processing and dissemination at the microarea level in the Italian census (CES/SEM.17/R.26)
 - Census small area statistics - the case of the United Kingdom (CES/SEM.17/R.27 and Ad.1)

- Preparation and holding of the population census in Czechoslovakia and processing of results (CES/SEM.17/R.28)
- Coverage and content errors in the 1980 U.S. Decennial methodology (CES/SEM.17/R.29)
- Statistical information systems design (CES/SEM.16/2)
- The use of mini- and microcomputers as integrated parts of the statistical data processing system (CES/SEM.16/3)
- User-friendliness of interface (CES/SEM.16/4)
- Report of the ISIS '84 Seminar held in Geneva, 16-19 April 1984 (CES/SEM.16/5)
- Conceptual planning of the development of the statistical information system (CES/SEM.16/R.1)
- The creation of the Federal data bank as a tool for high-level processing of statistical information (CES/SEM.16/R.2)
- Computer-based data transfer in the statistical information system (CES/SEM.16/R.3)
- Standardization of statistical information systems (CES/SEM.16/R.4)
- Statistical information systems design with Niam (CES/SEM.16/R.5)
- The employment statistics system (CES/SEM.16/R.6)
- The co-operation of the system of State statistics with other systems of socio-economic information in the implementation of the economic reform in Poland (CES/SEM 16/R.7)
- The software architecture of the statistical information system of the German Democratic Republic (CES/SEM.16/R.8)
- Some problems in the processing and analysis of multi-response questionnaires (CES/SEM.16/R.9)
- The acquisition, support and use of small computers in the United Kingdom statistical service (CES/SEM.16.R.10)
- Some aspects of minicomputers use in the statistical information system (CES/SEM.16/R.11)
- The impact of microcomputers on the statistical environment (CES/SEM.16/R.12)
- Comments on decentralization and some experiences in the use of mini- and microcomputers within statistical processing systems (CES/SEM.16/R.13)
- GPS - A user-friendly system for the graphical presentation of statistical data (CES/SEM.16/R.14)
- The utilization of terminals for formulating requirements of outputs in the statistical practice of the FSO (CES/SEM.16/R.15)
- Personal computers and graphical applications in Statistics: plans and considerations (CES/SEM.16/R.16)
- The need for, and the use of environmental indicators (CES/AC.58/2)
- Environmental concerns with a view to developing a system of environmental indicators (CES/AC.58/3)
- Measures of ecosystem distress (CES/AC.58/4)
- Experience gained with a river quality classification in England and Wales (CES/AC.58/5)

- Report of the meeting on environmental indicators held in Geneva, 19–22 March 1984 (CES/AC.58/76)
- The harmonization and revision of international economic classifications (CES/AC.59/2)
- The revision of the Standard International Trade Classification (SITC) (CES/AC.59/3)
- The integrated system of classification of activities and products (CES/AC.59/4)
- The revision of the International Standard Industrial Classification of All Economic Activities (CES/AC.59/5)
- The combined Trade/Production Goods Classification (CES/AC.59/6)
- Report of the meeting on economic classifications held in Geneva, 20–24 February 1984 (CES/AC.59/7)
- Use of population and housing censuses as single-source multi-subject data bases; preliminary results of an inquiry in selected countries (CES/WP.34/36)
- The use of population censuses as multi-subject data bases (CES/WP.34/37)
- The use of population censuses as multi-subject data bases in the FRG (CES/WP.34/38)
- Experiences in socio-economic classifications in censuses and other data sources in Cyprus (CES/WP.34/39 and Add.1)
- On the usage of internationally recommended socio-economic classifications and their utility (CES/WP.34/40)
- Finnish experiences with socio-economic classifications in censuses (CES/WP.34/41 and Addendum)
- Hungarian experiences in implementing recommended socio-economic classifications in censuses and other data sources (CES/WP.34/42)
- Experiences and problems in the use of socio-economic classifications in censuses data and in other statistics (CES/WP.34/43)
- Experiences in implementing socio-economic classification in the Netherlands (CES/WP.34/44)
- The Norwegian socio-economic classifications (CES/WP.34/45)
- Socio-economic groups in the 1981 censuses of Portugal (CES/WP.34/46 and Addendum)
- Experience of the Swedish socio-economic classification (CES/WP.34/47 and Addendum)
- Socio-economic groups and their utilization in population censuses in Switzerland (CES/WP.34/48)
- UK expertise in implementing the recommended socio-economic classifications in the 1981 population census (CES/WP.34/49)
- Social indicators (CES/WP.34/50)
- Information from the secretariat of the Council for Mutual Economic Assistance on the main forms of multilateral co-operation between the countries members of CMEA for the development and improvement of the system of indicators for social statistics (CES/WP.34/50/Add.1)
- Review of developments in the work of the Statistical Office of the European Communities on social indicators (CES/WP.34/50/Add.2)

- The OECD social indicator development programme (CES/WP.34/50/Add.3)
- Progress report on international work on the framework for integration of social, demographic and related statistics and on related statistical activities (CES/WP.34/51 and Addendum)
- The integration of economic and social statistics - general issues (CES/WP.34/52 and Addendum)
- Turkish experiences with the use of socio-economic classifications (CES/WP.34/53)
- The new nomenclature for determining the structure of households (CES/WP.34/54)
- The new nomenclature of occupations and socio-occupational categories (CES/WP.34/55)
- Report of the eight session of the Working Party on the Framework for the Integration of Social and Demographic Statistics (CES/WP.34/56)
- Guideline for quality presentations that are prepared for users of statistics (CES/AC.48/32)
- Possible future work (CES/AC.48/33)
- Non-response in panel surveys - some Norwegian experiences (CES/AC.48/34)
- Respondent burden and non-response - an empirical study (CES/AC.48/35)
- Estimation for small domains. Two studies using combined data from censuses, surveys and registers (CES/AC.48/36)
- Non-response - what it is and what we do about it (CES/AC.48/37)
- Estimating after-tax income using survey and administrative data (CES/AC.48/38)
- Linkage of data from different sources (CES/AC.48/39)
- Problems of linkage of data from different sources with special respect to the respondent burden (CES/AC.48/40)
- The problem of non-response in a labour force inquiry (CES/AC.48/41)
- Reducing the non-response bias by asking the basic question (CES/AC.48/42)
- A system of co-ordinated sampling to spread response burden of enterprises (CES/AC.48/43)
- An empirical comparison of two modes of data collection: the same survey by telephone and in person (CES/AC.48/44)
- The contribution of the fusion of files to the quality of statistics - the example of annual business surveys and profits tax declarations (CES/AC.48/45)
- The business statistics survey in France and consistency between sources (CES/AC.48/46/Rev.1)
- The non-response problem - The example of the health study (CES/AC.48/47)
- Surveys and registers - analysis and mutual complementations (CES/AC.48/48)
- Methodology of panel surveys (CES/AC.48/49)
- Treatment and evaluation of non-response in some Spanish surveys (CES/AC.48/50)
- The system of unified evaluation of data collection from various sources in Turkey (CES/AC.48/51)
- Report of the meeting on statistical methodology held in Geneva, 21-24 November 1984 (CES/AC.48/52)
