

## From the Editor

---

I thoroughly enjoy being the editor of WORK. And as the years have gone by (all too quickly over the last 14 years since the journal was created) it has provided me with such pure satisfaction and pride. Each issue has its own uniqueness, perhaps even a personality and this one is no exception. We have authors writing from various countries such as the United States, Sweden, New Zealand and Canada and from a variety of professions: Occupational therapy, nursing, ergonomics, medicine, public health, industrial hygiene, and psy-

chology. One article is especially distinctive since it has been co-authored by members of a clubhouse, just one consumer group that we serve.

I thank you for your continued support of our journal. As always, I welcome hearing from you.

Cheers,  
*Karen*
