WDPI 2010: The First Scientific Conference on Work Disability Prevention and Integration

Angers, France, 2–3 September 2010

This is the premier international conference for scientific research on preventing work disability, and promoting safe and sustained return to work, co-sponsored by the International Commission on Occupational Health. It provides a unique opportunity for inter-disciplinary exchange of ideas across disciplines and conditions. The meeting is co-organized with the PREMUS 2010 Conference on work-related musculoskeletal disorders, at the same location. Abstracts will be accepted until January 20, 2010.
