

From the Editor

Congratulations are extended to Robin with the publication of this important issue of *WORK* devoted to care work. I remember when I first spoke with Robin about the idea of this special issue. Robin enthusiastically accepted the role as guest editor and through a great deal of hard work and determination, the issue is now a reality. The articles composing the special issue will add to the science and evidence in this area.

Also included in this issue are three regular articles. They are:

- Health Promoting Leadership – Different Views of the Concept
- Factors affecting burnout and work engagement in teachers when entering

– Safety performance: The mediating role of safety control

I know you will find these articles very informative.

As always, I welcome hearing from you. If you would like to learn more about my activities, please follow me on Twitter @KarenJacobsOT or Facebook and LinkedIn.

Cheers

Karen
