WORK
A Journal of Prevention,
Assessment & Rehabilitation

From the editor

This issue of *WORK* contains a variety of topics, including young women on sick leave, job satisfaction, supported employment, a clinician's guide to work-related assessments and the prevention of cumulative trauma disorders in school aged children. I believe you will find something of interest within the pages of this issue

Dr Donna Joss, the editor of *Global Health Issues* is on a well deserved sabbatical and there-

fore her column will not be in this issue. However, do not despair, *Global Health Issues* will appear in subsequent issues.

As always, I look forward to hearing from you and welcome your feedback.
