

Keyword Index Volume 55 (2016)

accident prevention	231	circadian rhythm	225
accidents	471	claims manager	625
accommodation	783	cognitive behavioral theory based training (CBTr)	861
advantages	255	cognitive ergonomics	305
aerobic capacity	155	cognitive task analysis	271
age	187	combat stress reaction	737
age management	471	community mental health	19
aging workforce	679	compensation costs	497
agriculture	817	compensation industry	347
anatomy of footwear	285	computer	663
art	93	computer work	163
arts-based research methods	37	content analysis	783
attention performance	489	coronary heart disease	515
autonomous maintenance	271	cross-reference testing	873
background music	489	design for interaction	321
background speech	505	design science	643
bag	673	DIDO	414
barriers and facilitators	133	dietary modification	281
behavior change and communication	281	difference	531
behavior type	231	disability	51, 133, 923
Berlin questionnaire	765	disability and health	399
biomechanical loads	817	discomfort	605
biomechanics	285	drug and alcohol addiction	373
biomedical education employer	481	education	577
blue collar	187	elbow	3
body mass index	635	electromyography	241
bus drivers	207	emotional labour	347
CAD workstation	171	employee	481
calories	187	employment	197, 429, 577, 613, 923
cancer survivor	783	engineering consultancy	335
cardiovascular diseases	155	engineering design	335
cardiovascular risk factors	207	ergonomic assessment	297, 463
career	197	ergonomics	263, 321
caregivers	727	evaluation	51
case managers	347	exercise	515
case study	145	experimental chair	63
center of pressure	673	extended working life	471
cerebral palsy	727	extensor carpi radialis	241
cervical alignment	163	extensor carpi ulnaris	241
cervical spine	163	facilitating factors	115
childhood rehabilitation	727	farm	471
children	525	feeling	489
cholesterol	207		

FIFO	414	longitudinal research	577
financial income	577	lupus	429
Finland	145		
fire man	155	macronutrients	187
foot anatomy	285	masking sound	505
forward head posture	163	mediation	305, 797
functional capacity evaluation	873	mental disorders	549, 585
		mental health	305, 577
garments	255	milkers	747
gender	453, 663	mining	414
generic skills	481	MOHO	737
grounded theory	385	morphology	285
		movement	63
habitual posture	163	musculoskeletal	625
hand	3	musculoskeletal disorders	115, 463, 497, 841, 913
health	19, 414		
health and safety practice	471	needs	255
Health Belief Model	703	noise attenuation	531
health care	841	Nominal Group Technique	703
health examinations	849	notebook computers	663
health promotion	93, 453, 861		
healthcare center	765	obstructive sleep apnea syndrome	765
healthcare waste	311	occupation	197, 497, 831, 901
health-related quality of life	441	occupational characteristics	215
heavy metals	311	occupational diseases	101
high school	63	occupational engagement	19
human activities	453	occupational health	207, 311, 385, 471,
human engineering	399		585, 605, 715, 849
human factors	255	occupational health and safety	37, 643, 805
human-system interaction	171	occupational health care	883
hypertension	207	occupational	297, 399
		occupational injuries	263
immigrant workers	37	occupational medicine	849
implementation	593	occupational therapy	19, 181, 689, 757, 831, 913
industrial medicine	263	office fit test	531
injury management advisor	625	older employees	471
injury	471, 663	operator	643
insomnia	207	optimal weight	673
interdisciplinary practice	737	ordinary employment	51
international classification of functioning	399	Organization Quality of Life-Brief	441
		organizational design and management	335
job content questionnaire (JCQ)	441	organizational innovation	613
job demands	539	orthosis and prosthesis	463
job design	539	oxidative stress	13
job stress	585		
judges	715	participatory ergonomics	643, 883
judicial sector	715	particulate matter	655
		percent change	873
knowledge mobilization	727	performance	373
knowledge translation	727	personal air sampling	655
		physical activity	281, 893
last design	285	physical fitness	155
learning difficulties	757	physical therapy	831
learning support center	757	physical work	841
lifting/adverse effects	525	positive attitudes	373
lighting of workplaces	171	posture	605, 663, 773

predictive assessment	565	steel plant	655
prehospital emergency health care	565	stress	93, 635
prevention	3, 93, 497, 913	students' concerns	757
preventive behavior	805	study protocol	747
prison employees	215	symmetry	673
procedural justice	77	systemic lupus erythematosus	429
professional exhaustion	215		
psychological health	359	tablets	773
psychology	3	task	773
psychometrics	805	technical skills	481
psychosocial work factors	441	technology and tools	783
PTSD	737	therapeutic community	373
public health	77, 849	thoracic kyphosis	163
pulmonary function tests	525	total antioxidant power	13
		trace metal dust	655
qualitative overload	29, 37, 585, 831	transgender	197
quality of life	577	traumatic brain injury	689
questionnaire validation	805	truck drivers	385
		trucking work environment	385
re-entry	115		
rehabilitation	29, 145, 181	ultrasonography	747
relative risks	453	unpaid work	181
resources	335	upper extremity	101
return to work	399, 613, 689, 831		
review	101	validity	883
rheumatic disease	923	vegetable harvesting	817
ripple effect	305	video-based posture assessment	817
risk prevention	471	visual fatigue	171
		vocational rehabilitation	197, 429, 549, 901
safety climate	231		
sedentary behavior	359	waist to hip ratio	635
self-regulation	797	walking	525
sensory types	271	weight	635
serial recall	505	welfare institutions	77
sex	663	wellbeing	414, 797
sheltered employment	51	wellness	515
shoulder	3	WHOQOL-brief	441
shoulder pain	297	work	133, 901
sick leave	77, 115, 593, 613	work ability	861
sickness absence	593	work culture	703
sit-stand chairs	773	work disability	429
sitting	359	work engagement	93, 373
sitting biomechanics	63	work environment	585
sitting posture	63, 605	work hours	539
skill discretion	539	work index	187
SLE	429	work load	505
sleep efficiency	225	work organization	841
sleep onset latency	225	work questionnaire	883
sloping desk	773	work resumption	593
social business	145	work risk education	471
social capital	19	work system	643
social innovation	145	worker	13, 241, 515, 765
social participation	133	workers' assessment	679
social support	893	workers' compensation	625
somnwatch	225	workers' health	305
spinal curvature	673	working behavior	171

working conditions	715	workplace health promotion	893
working during active treatment	783	workplace injury	565
working life	115	work-related musculoskeletal disorders	817
working-time arrangements	635	work-related musculoskeletal pain	263
work-life balance	679	worksite	515, 531
workplace	263, 359, 797	worksite wellness	703
workplace accident	231	world health	441
workplace accommodations	549	wrist	3
workplace disability management	29	wrists overload	747
workplace ergonomics	841
